An all-in-one PBX solution

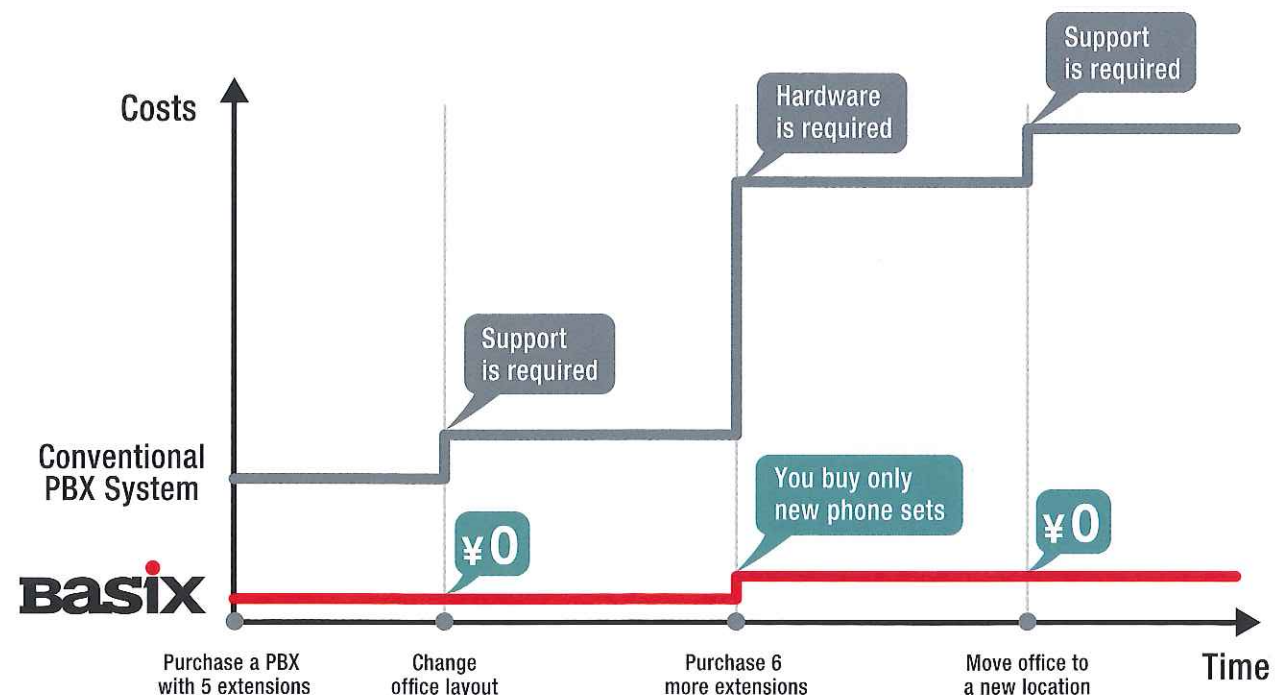

- ❖ **Easy to use!** Simple one cable connection.
- ❖ **Economical!** Free calls between Basix users.
- ❖ **Flexible!** Place and receive calls when outside the office.
- ❖ **Powerful!** All the functions of a PBX system and more!

Basix

Meet Basix, the Business Phone solution that is simple, economical and innovative!

Money saving, not only at the moment of purchase, but also in the long term.

Available from a single extension, Basix provides all the features of a high end PBX system to your business, without the need of a large infrastructure or a huge initial investment. Let's compare:

No messy wiring, no technicians required.

The easy-to-install, ready-to-use business phone!

All you need is an internet connection and a router (or HUB). Basix is already set so you can start using it right away. Just connect it to your network to start placing and receiving calls. If your company moves to a new location, simply connect Basix to the new network.

1. Connect it to the LAN cable

2. Connect it to the router or HUB.

3. Connect to the internet.

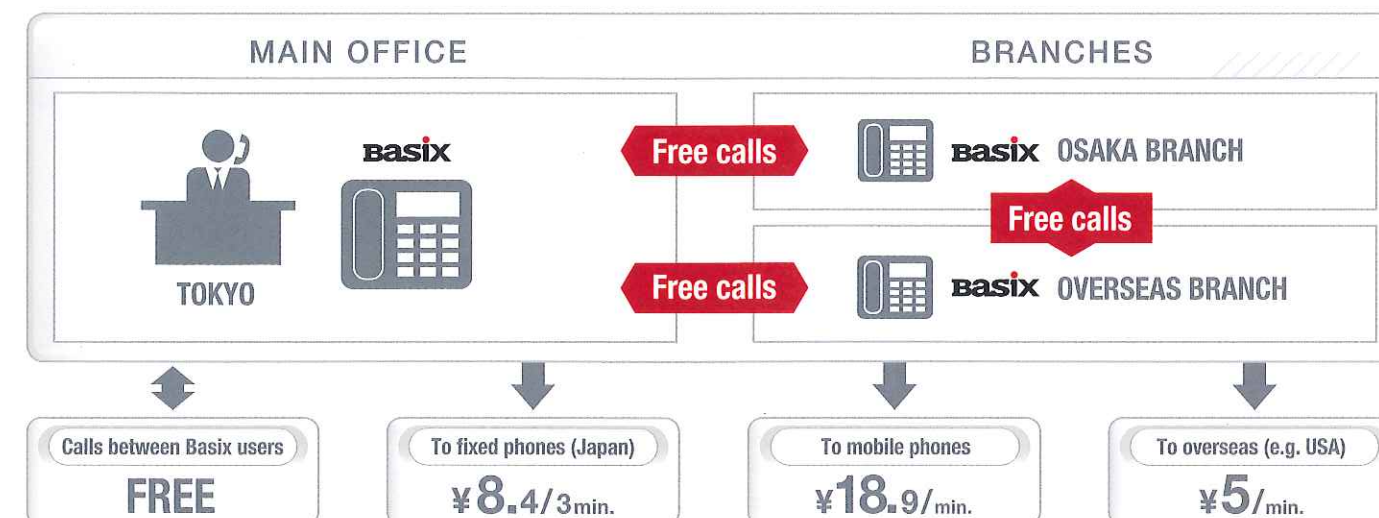

4. Start using it.

Free calls between main office and branches, no matter where they are located!

Calls between Basix users are free, regardless of the location! For example, if your main office is in Tokyo and your branches in Osaka or even overseas, all the phone calls between them will be free of charge!

Expanding your business overseas? Take advantage of Basix economical rates for international calls.
